

## INDEX TO VOLUME 27

### A

- Acetylcholine, adrenalin, and potassium, action of, in relation to innervation of isolated auricle of spiny dogfish (*Squalus Acanthias*), 283\*
- Acetylene and fluorescein, objective methods to determine the speed of blood flow and their results, 281\*
- Addison's disease, critical evaluation of cardiac mensuration on treatment of, with desoxycorticosterone acetate, 331
- Adrenal gland, peculiar type of, cortical damage associated with acute infections, its possible relation to circulatory collapse, 879\*
- preparations, adrenin and paredrinol, administration of, in normal man, systemic and circulatory changes following, 287\*
- epinephrine and related substances in human arterial walls and kidneys, their role in arteriosclerosis, 285\*
- effect of thyroid extract, and combination of these on hearts of intact and thyroidectomized rabbits, 186
- Adrenalin (*See* Adrenal preparations)
- acetylcholine, and potassium, action of, in relation to innervation of isolated auricle of spiny dogfish (*Squalus Acanthias*), 283\*
- thyroid extract, and combination of these, effect of, on hearts of intact and thyroidectomized rabbits, 186
- Adrenin, ephedrine, and paredrinol, systemic and renal circulatory changes following administration of, to normal man, 287\*
- Adson, Alfred W., Gambill, E. E., and Hines, E. A., Jr., 360, 381
- Alam, G. M., and Smirk, F. H., 743\*
- Alcayaga, R., Wintrobe, M. M., Humphreys, S., and Follis, R. H., Jr., 275\*
- Alkalosis, heart changes in, 750\*
- Allen, Edgar V., MacLean, A. R., and Magath, T. B., 145
- Allison, J. B., Cole, W. H., Murray, T. J., Boyden, A. A., Anderson, J. A., and Leatham, J. H., 879\*
- Allot, E. N., and Lawrence, J. S., 750\*
- Alperin, Leonard, and Feil, H., 225
- Alpert, L. K., and Lilienthal, J. L., Jr., 136\*
- , and Thomas, C. B., 136\*
- Altschule, Mark D., 322
- , Dexter, L., Frank, H. A., and Haynes, F. W., 427\*
- , Katersky, E. M., and Gilligan, D. R., 274\*
- , Zamcheck, N., and Iglauer, I., 426\*
- Alzamora, Victor V., Rosenbaum, F. F., and Johnston, F. D., 667
- Amin, M., Gatman, M., and Smirk, F. H., 744\*
- Ammonium chloride, and low salt diet, effect on plasma volume of dehydration produced by, 353
- Anaphylaxis, hypersensitivity, experimental evidence that lesions with basic characteristics of rheumatic carditis can result from, 277\*
- Anderson, J. A., Cole, W. H., Allison, J. B., Murray, T. J., Boyden, A. A., and Leatham, J. H., 879\*
- Anemia, pernicious, cardiovascular manifestations in, 743\*
- Aneurysm, acquired, and arteriovenous fistula of peripheral vessels, surgical treatment of, 749\*
- bacterial, 877\*
- congenital, of cerebral arteries, embryologic study, 138\*
- intrapericardial, caused by congenital syphilis, 121
- multiple saccular, of aorta, 745\*
- of right pulmonary artery, with rupture into bronchus, and patent ductus arteriosus, 872\*
- saccular, of abdominal aorta; terminal anuria and rupture into duodenum, 279\*
- syphilitic, of celiac artery, 279\*

An asterisk (\*) after a page number indicates the reference is an abstract and not an original article.

- Angina pectoris, cardiovascular system  
in patients with, 322  
coronary occlusion, and coronary insufficiency, clinical and post-mortem study, 803  
effect of external heat and cold on patients with, evidence for existence of a reflex factor, 611
- Angiocardiography, in congenital heart disease, intracardiac shunts, 428\*  
patent ductus arteriosus, 748\*
- Angiotonin, action of crystalline proteolytic enzymes on, 881\*  
and renin, effects of, during hemorrhagic hypotension and shock, 875\*  
on cardiac output and total peripheral resistance, 875\*
- Anomaly, congenital, aneurysm of cerebral arteries, 138\*  
aorto-pulmonic communication incident to a congenital aortic septal defect; discussion of embryologic changes involved, 733  
atypical coarctation of aorta with absence of left radial pulse, 217  
cardiac disease, bibliography of 1,000 cases in Maude Abbott's Atlas, 688  
common aorto-pulmonary trunk, 133\*  
cor trientriculare, 259  
Eisenmenger's complex, 422\*  
heart block in healthy adults, 276\*
- Anoxemia, cardiac failure, and fever, protein content of extracellular fluid in normal subjects after venous congestion and in patients with, 880\*
- Anoxia, sustained anoxic, in dogs, electrocardiographic changes in relation to tolerance of, 234
- Aorta, abdominal, occlusions of; saddle embolus and thrombosis, 876\*  
saccular aneurysm of, with terminal anuria and rupture into duodenum, 279\*  
thrombosis and embolism of, 876\*  
cholesterol content of blood and, in castrate female rabbits, effect of testosterone propionate and estradiol dipropionate on experimental atherosclerosis, 750\*  
coarctation, of, atypical, with absence of left radial pulse, 217  
congenital septal defect, discussion of embryologic changes involved, aorto-pulmonic communication incident to, 733
- Aorta—Cont'd  
medial degeneration of, intimal changes in, 139\*  
multiple saccular aneurysms of, 745\*
- Aortic bodies, tumors of, in dogs, structure and histogenesis of, 134\*  
embolectomy, 428\*  
hypoplasia, extreme cardiac hypertrophy, and endocrine disorders, 425\*
- Aorto-pulmonary trunk, common, 133\*
- Arizona, rheumatic heart disease in, 423\*
- Artery, brachial, effect of injection of histamine into, on permeability of capillaries of forearm and hand, 871\*  
celiac, syphilitic aneurysm of, 279\*  
cerebral, congenital aneurysms of, 138\*  
coronary, augmentation of blood flow in, with elevation of right ventricular pressure, 280\*  
communication between, produced by application of inflammatory agents to surface of heart, 745\*  
electrocardiographic changes (local ventricular ischemia and injury) produced in dog by temporary occlusion of, showing new stage in evolution of myocardial infarction, 164  
further observations on ischemia-injury pattern produced in dog by temporary occlusion of; incomplete T diversion patterns, theophylline T reversion, and conversion of negative T pattern, 657  
insufficiency, clinical types of, and their recognition, 745\*  
lateral syndrome, 882 (B. rev.)  
occlusion, coronary insufficiency and angina pectoris, clinical and post-mortem study, 803  
thrombosis, acute, heart size and pulmonary findings during, 426\*  
intimate account of early experience with, 1  
damaged, restoration of blood flow in, further studies on nonsuture method of blood vessel anastomosis, 138\*  
human, walls of, and kidneys, epinephrine and related substances in, their role in arteriosclerosis, 285\*  
ligation of, progressive, supplying head, production of chronic hypertension by, 135\*  
major, prevention of gangrene following ligation of, experimental study, 749\*

## Artery—Cont'd

- of lower extremities; oscillometric index, aid in evaluating status of, 878\*
  - peripheral, experimental study of flow patterns in, 140\*
  - flow and pattern responses of, to injection of vasomotor drugs, 141\*
  - popliteal, embolism and thrombosis of, diagnosis and treatment, 877\*
  - pulmonary, embolism due to quiet venous thromboses and simulating cardiac and pulmonary disease, 746\*
  - right, aneurysm of, with rupture into bronchus and patent ductus arteriosus, 872\*
  - Astbury, Effie C., and Bauer, D. deF., 688
  - Atebrin, plasmoguin, and quinine, effects of, on electrocardiogram, 741\*
  - Atherosclerosis, experimental, effect of testosterone propionate and estradiol dipropionate on cholesterol content of blood and aorta in castrate female rabbits, 750\*
  - in chick, 419\*
  - Athlete, young, sudden death of, with excessive concentration of epinephrine-like substance in heart muscle, 751\*
  - Auricle, isolated, of spiny dogfish, action of adrenalin, acetylcholine, and potassium in relation to innervation of, 283\*
  - rhythm of, influence of ventricular systole upon, in complete and incomplete heart block, 676
  - right, of heart, ball thrombosis in, with descriptions of symptoms produced, 858
  - Avery, Naves L., Jr., Lyons, R. H., and Jacobson, S. D., 353
  - Aviators, fitness of, observations on cardiovascular examination, 550
  - young, healthy, analysis of electrocardiograms obtained from, 524
  - Axis, electric, character of precordial ventricular complex in electrocardiographic tracings with deviation to left, 872\*
- B
- Baggenstoss, Archie H., Keith, N. M., and Burchell, H. B., 817
  - Baila, M. R., and Goffi, M. I., 283\*
  - Bailey, C. C., and Betts, R. H., 872\*
  - Bain, C. W. C., and Parkinson, J., 133\*
  - Baker, L. A., Sprague, H. B., and White, P. D., 133\*
  - Baldes, E. J., Mann, F. C., Essex, H. E., and Herrick, J. F., 139\*
  - Banerjea, J. C., 277\*
  - Barker, Paul S., Wilson, F. N., Johnston, F. D., et al., 19
  - Barnes, Arlie R., Dearing, W. H., and Essex, H. E., 96, 108
  - Bartlett, W. M., 746\*
  - , and Carter, J. B., 419\*
  - Bassin, S., Hurst, A., and Levine, I., 873\*
  - Battro, A., and Labourt, F. E., 282\*
  - Bauer, Donald deF., and Astbury, E. C., 688
  - Bayley, Robert H., La Due, J. S., and York, D. J., 164, 657
  - Beck, C. S., Schildt, P., and Stanton, E., 745\*
  - Betts, R. H., and Bailey, C. C., 872\*
  - Bibliography of 1,000 cases of congenital cardiac disease, analyzed in Maude Abbott's Atlas, 688
  - Bidder, T. G., Gregg, D. E., and Shipley, R. E., 282\*
  - Black, B. M., and Pemberton, J. de J., 749\*
  - Blakemore, A. H., and Lord, J. W., Jr., 138\*
  - Blalock, A., 139\*
  - Bland, Edward F., 588
  - Blood and organs of dogs, reactions in, on intravenous injection of solution of glycogen, 419\*
  - cholesterol content of, and aorta in castrate female rabbits, effect of testosterone propionate and estradiol dipropionate on; experimental atherosclerosis, 750\*
  - composition of rabbits in gravity shock, 879\*
  - flow, and pattern responses in peripheral arteries to the injection of vasomotor drugs, 141\*
  - augmentation of, in coronary arteries with elevation of right ventricular pressure, 280\*
  - objective methods to determine speed of, and their results (fluorescein and acetylene), 281\*
  - patterns of, in various peripheral arteries, 140\*
  - renal, and phenol red excretion in hypertension of renal origin, 135\*
  - restoration of, in damaged arteries, further studies of nonsuture method of blood vessel anastomosis, 138\*

## Blood—Cont'd

- speed of, fluorescein and acetylene method to determine, and their results, 281\*
- in intact animal, effect of certain substances on intrahepatic circulation of, 289
- intra-arterial and intravenous infusion of, hemorrhagic hypotension and its treatment, 878\*
- normal supply of, to node of Tawara, bundle of His and its branches, 275\*
- occurrence of bacteriostatic properties in, of patients after recovery from streptococcal pharyngitis, 874\*
- pressure, and pulse rate, effect of certain mechanical agents and paredrinol on, 360, 381
- arterial, cerebrospinal, and venous, in man during cough and strain, 871\*
- in chronic hypertension, effect of dietary protein on urea clearance and, 136\*
- systolic and diastolic in man, a sphygmotonomograph for continuous recording of, 134\*
- cardiac output, and pulse of dogs, effects of occlusion of experimental chronic patent ductus arteriosus on, 129\*
- casual and basal, in British and Egyptian men, 743\*
- in essential hypertension, 743\*
- in renal hypertension, 744\*
- elevated, venous, edema, increased plasma volume, an interpretation of mechanisms producing, in certain patients with prolonged congestive failure. Fluid dynamics in chronic congestive heart failure, 877\*
- of normal and hypophysectomized rats, effect of diethylstilbestrol on, 142\*
- purification and bioassay of tissue extracts capable of lowering, of hypertensive rats, 870\*
- responses of, in dogs, to vitamin A and vitamin D, 273\*
- right ventricular augmentation of blood flow in coronary artery with elevation of, 280\*
- systemic, venous, of patients with congestive heart failure, effect of intravenously administered digoxin and ouabain on, 641
- tonus and venopressor mechanism, clinical physiology of major mode of death, 280\*
- venous, graphic registration of, taken by direct method, 170

## Blood—Cont'd

- in patients with varicose veins, 744\*
- transfusion of, effect on renal function in dog, after hypotension due to hemorrhage, 137\*
- venous, defects in return of to the heart, 145
- vessel, anastomosis of, nonsuture method of, 138\*
- small, of rabbit ear, observations on effect of certain drugs on, before and after denervation, 284\*
- volume of, in congestive heart failure, relation to other measurements in 15 patients, 140\*
- Bloom, F., 134\*
- Body fluid, extracellular, protein content of, in normal subjects after venous congestion and in patients with cardiac failure, anoxemia, and fever, 880\*
- Bond, D. D., Rosenbluth, A., and Daughaday, W., 130\*

- Circulation, collapse of, peculiar type of adrenal cortical damage, associated with acute infections and its possible relation to, 879\*
- coronary insufficiency of, coronary occlusion, and angina pectoris, clinical and post-mortem study, 803
- defects in return of venous blood to heart, 145
- efficiency of physiologically induced myocardial ischemia, as test of, as applied to selection of pilots, 746\*
- failure, orthostatic ("gravity shock") in dog, 880\*
- in arterial hypertension, 425\*
- in hind limbs of dog, ten years following left lumbar sympathetic ganglionectomy, 139\*
- in man, in certain postures before and after extensive sympathectomy for essential hypertension, physiologic aspects, 360, 381
- effect of certain mechanical agents and paredrinol on blood pressure and pulse rate, 360, 381
- incoordination of, clinical studies on, as determined by response to rising, 427\*
- intrahepatic, of blood, effect of certain substances on, in intact animal, 289
- normal, of node of Keith, Flack, node of Tawara, and bundle of His and its branches, 143 (B. rev.)
- rates of, correlation between roentgenographic changes in the lungs in left ventricular failure and, 748\*

## Circulation—Cont'd

- systemic and renal, changes in, following administration of adrenin, ephedrine, and parendrinol to normal man, 287\*
- venous congestion, protein content of extracellular fluid in normal subject after, and in patients with cardiac failure, anoxemia and fever, 880\*
